

# Prabhat Dixit

## MEAN Stack Developer

✉ dxtprabh87@gmail.com ☎ +91 9598208182 📍 Gurugram, India 🌐 LinkedIn

### PROFILE

---

Results-driven **MEAN Stack Developer** with **3.5 years of total experience**, including **2 years in MEAN Stack development** and **1.5 years in Database Administration**. Experienced in designing and developing scalable **Angular applications** integrated with **RESTful APIs** and **MongoDB/MySQL** databases. Strong expertise in responsive UI development, backend integration, and database optimization within enterprise-level pharmaceutical systems. Adept at writing clean, maintainable code and collaborating with cross-functional teams to deliver reliable, production-ready applications.

### WORK EXPERIENCE

---

#### Mean Stack Developer

09/2023 – Present | Gurugram, Haryana

*E-Tech Services Private Limited*

- Engineered and maintained scalable **Angular-based enterprise applications** for pharmaceutical business operations, including MR reporting systems and analytics dashboards
- Implemented **Angular standalone components** and modular architecture with **lazy loading** to enhance application scalability, maintainability, and performance
- Developed advanced **Reactive Forms** with custom validations, dynamic form controls, and reusable form components for complex business workflows
- Integrated secure **RESTful APIs** using Angular HttpClient with centralized service architecture, HTTP interceptors, and structured error handling mechanisms
- Designed and developed backend **dashboard APIs using Node.js, LoopBack, and MongoDB**, supporting enterprise reporting platforms such as MPCDSR India and Pharma MR Reporting Software
- Contributed to the development of Pharma MR Reporting Software and mobile application integrated with **Geo-Location Tracking**, improving field activity monitoring and reporting accuracy
- Collaborated with cross-functional teams in Agile environments to deliver feature enhancements, production releases, and continuous system improvements
- Maintained structured version control workflows using **Git and GitHub**

#### Database Administrator & Technical Support

05/2022 – 08/2023 | Gurugram, Haryana

*E-Tech Services Private Limited*

- Designed and maintained scalable **MongoDB database architecture** for enterprise MR reporting system
- Developed complex **aggregation pipelines and optimized queries** to improve reporting efficiency
- Enhanced database performance through indexing and query tuning techniques
- Implemented structured backup and recovery processes to ensure data integrity
- Managed large-scale pharmaceutical datasets supporting business-critical operations
- Coordinated with frontend developers to ensure seamless API-database integration

### PERSONAL PROJECTS

---

#### Weather Application | Angular | OpenWeather API

- Designed and developed a responsive **single-page Angular application** for real-time weather forecasting
- Integrated external **OpenWeather REST API** using Angular HttpClient with centralized service architecture and structured error handling
- Implemented **Reactive Forms** for dynamic city search with validation and user-friendly error feedback
- Implemented loading states, conditional rendering, and optimized API calls to enhance user experience

### TECHNICAL SKILLS

---

**Primary Technologies** — JavaScript (ES6+), TypeScript, HTML5, CSS3, RxJS

**Frameworks & Libraries** — Angular (v6, v14, v16, v18), Angular Material, LoopBack, NestJS,

**Backend Technologies** — Node.js

**Database Technologies** — MongoDB (Aggregation, Indexing), MySQL

**API & Integration** — RESTful APIs, CRUD Operations, Authentication (JWT), API Testing (Postman)

**Tools & Platforms** — Git, GitHub, Postman, PuTTY, NPM, VS Code

**Core Competencies** — Performance Optimization, Modular Architecture, Application Debugging, Responsive UI Development

## ACADEMIC QUALIFICATIONS

---

|                                                                                 |      |
|---------------------------------------------------------------------------------|------|
| <b>Master of Computer Applications</b><br><i>Lovely Professional University</i> | 2026 |
| <b>Bachelor Of Arts</b><br><i>Mahatma Jyotiba Phule Rohilkhand University,</i>  | 2020 |

## TECHNICAL CERTIFICATIONS

---

|                                                                                       |      |
|---------------------------------------------------------------------------------------|------|
| <b>A-Level</b><br><i>National Institute of Electronics and Information Technology</i> | 2022 |
|---------------------------------------------------------------------------------------|------|

### Relevant Coursework:-

- Object-Oriented Programming using **Java**
- Data Structures (**C++**)
- Database Management Systems (**DBMS**)
- Structured System Analysis and Design
- Basics of Operating Systems & UNIX

|                                                                                       |      |
|---------------------------------------------------------------------------------------|------|
| <b>O-Level</b><br><i>National Institute of Electronics and Information Technology</i> | 2018 |
|---------------------------------------------------------------------------------------|------|

### Relevant Coursework:-

- Programming and Problem Solving using **C Language**
- Internet Technology & Web Designing
- IT Tools and Business Systems

## ACHIEVEMENTS

---

Received positive client feedback for delivering responsive, reliable, and well-structured web applications that improved overall user experience.

## INTERESTS

---

Creative Writing (Poetry and Diary Notes) | Adventure Hiking Lover |  
Mountain Trekking Enthusiast | Reading Literature and Exploring New Ideas & Arts

## LANGUAGES

---

**English** — Fluent

**Hindi** — Fluent
